

# KuteKing (\$KKG) — The People's Crown

## Whitepaper (Concise) — 2025

KuteKing (\$KKG) was born from the mind of a trader. After four years in the Forex markets, watching price charts rise and fall, the lesson was clear: success comes from discipline, mindset, and resilience. Every trader dreams of wearing the crown — the victory after surviving drawdowns and setbacks. KuteKing represents that spirit — the People's Crown. Built on Solana, powered by trader discipline, market psychology, and community unity.

## Project Vision

Built by a trader, ruled by the people — KuteKing is where trading resilience meets meme culture. Our mission is to build a community-powered ecosystem that celebrates persistence, loyalty, and shared victories.

## Tokenomics
